

## Edible Cookie Dough

### Ingredients:

- 1 stick (half cup) of softened butter (unsalted)
- ½ cup brown sugar
- 3 tablespoons of white sugar
- ¼ tsp salt
- 1 cup of flour
- 1 ½ Tablespoon of milk
- ½ tsp of vanilla

To cook off your flour, spread your 1 cup of flour onto a baking tray and bake at 350°F for 7 minutes or until the flour reaches 160°F.

Cream together butter, sugars, and salt. In turn, add in all the flour, the milk and the vanilla. If your mix is too dry, add a tiny bit more milk until it's cookie consistency. Mix in your chocolate chips.

Enjoy!
